

# Research in Mental Health

Paul French

# Research Delivery Network (RDN) purpose

- Support the successful delivery of high quality research, as an active partner in the research system.
- Increase capacity and capability of the research delivery infrastructure for the future.

This means  
research can:

- Reach more people
- Address changing population needs
- Support the successful delivery of high quality research
- Increase capacity and capability of the research delivery infrastructure for the future

# Combined Regional (Network) map
