

National Audit of Dementia Annual Dementia Statement Pilot Audit 2021

What is the Annual Dementia Statement?

The Annual Dementia statement collects information about your hospital, relating to care provision and monitoring of the quality of care for people with dementia.

The output is a series of statements demonstrating the achievement and progress your hospital has made in its work to ensure a good standard of care. You can download this as a poster (this has been created in a simple format for pilot).

This tool is divided into sections: Admissions, Assessment, Discharge, Feedback about the care provided to people with dementia, Governance, Staff Expertise and Training, Nutrition, Environment.

Some of the information required can be uploaded from the results of your casenote audit (these are greyed out and you cannot enter information into these fields). The rest of the information you are required to input.

To get additional guidance for specific questions, hover your mouse over the blue ? buttons.

The information can be inputted in any order, and you can save and come back to it up until the deadline of the 17th September 2021.

Only ONE ADS can be completed per hospital. Please decide with your colleagues who will take the lead on completing this form.

SECTION 1: ADMISSIONS

1.1 How many admissions (overall) do you have within a year (past year)?

1.2 How many of these admissions were people with dementia?

1.3 Percentage of people with dementia admitted to the hospital

1.4 Do dementia leads in the hospital think that most patients with dementia/
cognitive problems are identified during their admission?

- Yes
 No

1.5 Can you estimate a proportion of patients with dementia who may not be
identified during admission?

- Less than 5%
 Up to 10%
 Up to 15%
 Up to 20%
 Up to 25%
 An unknown number

SECTION 2: ASSESSMENT

2.1 Percentage of people with dementia who received an initial assessment for
delirium

2.2 Percentage who received delirium assessment within 24 hours

2.3 Percentage of people with dementia who received an assessment
for pain

2.4 Percentage who received pain assessment within 24 hours

SECTION 3: DISCHARGE

3.1 Percentage of patients who had discharge planning started within 24 hours of
admission

3.2 Median length of stay

SECTION 4: FEEDBACK ABOUT THE CARE PROVIDED TO PEOPLE WITH DEMENTIA

4.1 Rating of overall care quality by carers

4.2 Rating of communication by carers

4.3 Do you collect feedback on a regular basis from people with dementia admitted to the hospital?

Yes

No

4.4 Based on the past year, what is the average number of people with dementia per month providing feedback?

SECTION 5: GOVERNANCE

5.1. The name of the personal information document or scheme you use in the hospital

5.2. Number of people with dementia who had a bedside check

5.3. Number of people with dementia who had an up to date document with their personal information at their bedside

5.4.1 Falls

1. Number of adult falls in the past year (up to your most recent completed year figures)

2. Number of falls in which a person with dementia was involved

3. Percentage of falls involving people with dementia

5.5.1. Readmissions

1. Number of readmissions within 30 days (overall) in the past year
2. Number of delayed discharges involving a person with dementia
3. Percentage of delayed discharges involving people with dementia

5.6.1. Delayed discharges

1. Number of delayed discharges (overall) in the past year
2. Number of delayed discharges involving a person with dementia
3. Percentage of delayed discharges involving people with dementia

5.7.1. Pressure ulcers

1. Overall number of pressure ulcers (newly acquired in hospital) in the past year
2. Number of pressure ulcers (newly acquired in hospital) involving a person with dementia
3. Percentage of pressure ulcers (newly acquired in hospital) involving people with dementia

5.8.1. Incidents flagged as involving violence or aggression

1. Number of incidents flagged as involving violence or aggression (overall) recorded in the past year
2. Number of incidents flagged as involving violence or aggression involving a person with dementia
3. Percentage of incidents recorded as involving violence or aggression involving people with dementia

5.9. Do you have a dementia strategy group/working party?

- Yes
- No

5.9.1 How often do they meet?

5.9.2 Please indicate who is involved:

5.10. Is the hospital signed up to:

1. John's Campaign

- Yes
- No

2. Dementia Friendly Hospitals Charter

- Yes
- No

5.11. Please give brief details of other dementia related work you would like to include in this statement

- N/A

SECTION 6: STAFF EXPERTISE AND TRAINING

6.1. Number of lead nurses for dementia employed by your TRUST (WTE)

6.2. Number of consultant physicians who are specialists for dementia employed by your TRUST (WTE)

6.3. Number of allied healthcare professionals who are specialists in dementia working in your TRUST

6.4. Percentage of all staff employed by your hospital OR Trust who have received Tier 1 dementia training (awareness level)

- %
- Unknown**

1. What level is this reported at?

- Hospital**
- Trust**

6.5. Percentage of staff working on your adult wards OR across your Trust who have received Tier 2 dementia training (knowledge, skills and attitudes for staff in regular contact with people living with dementia)

- %
- Unknown**

1. What level is this reported at?

- Hospital**
- Trust**

6.6. Percentage of staff working on your adult wards OR across your Trust who have received Tier 3 dementia training (enhanced knowledge, skills and attitudes for staff who are experts in working with people living with dementia)

- %
- Unknown**

1. What level is this reported at?

- Hospital**
- Trust**

6.7. Do you require contracts with external providers (for services such as catering and security) to provide their staff with dementia awareness training, where staff come into contact with people with dementia?

- Yes
- No

1. Who is this for?

- All contracted services
- All contracted services with staff working on adult wards
- Some contracted services

SECTION 7: NUTRITION

7.1. Total number of adult wards

7.2. Total number of adult wards where finger foods are available as meal options for each meal

7.3. Percentage of adult wards where finger foods are available as a meal option

7.4. Total number of adult wards where people with dementia can have snack foods as a meal replacement or at any time as a supplement

7.5. Percentage of adult wards where people with dementia can have snack foods as a meal replacement or at any time as a supplement

SECTION 8: ENVIRONMENT

8.1. Has the physical environment within the hospital been reviewed using an appropriate tool (for example, King's Fund Enhancing the Healing Environment; Patient Led Assessment of the Care Environment etc.) to establish whether it is 'dementia-friendly'?

- Taken place throughout the hospital
- Taken place on all adult wards and public areas
- Taken place on all adult wards
- Taken place on all care of the elderly ward
- Taken place on some wards
- Not taken place

8.2. Environmental changes based on the review are:

- Completed
- Underway
- Planned but not yet underway
- Planned but no funding has been identified
- Not yet planned
