

FOUR CORNERS OF STORIES

BLUE CORNER:

Team stories to read and discuss with others

Team stories can be found on our [website](#)

RED CORNER:

What challenges do you still face?

1. Lack of executive and senior support of the TDS
2. Tobacco dependency role and team structure
3. Long term and stable funding
4. Staff resistance to smoke free policy
5. Misconceptions around tobacco dependency treatment
6. Require support from Psychiatrists and medical team
7. Issues with prescribing medication and NRT

ORANGE CORNER:

What challenges have you overcome during your QuITT journey?

1. Changed staff perceptions
2. Improved relationships with the ward
3. Improved collection and understanding of data
4. Established NRT as part of care plans and support
5. Introduction of training
6. Created in-patient groups and activities

GREEN CORNER:

What has been the greatest impact of the work you have done?

1. Using the lived experience voice to make positive change.
2. Staff understanding of the importance of supporting smoking cessation attempts.
3. Staff supported to make their own quit attempt.
4. Enhancing and enabling the timely prescription of NRT to support patients upon admission.
5. Building the environment to have meaningful conversations.
